MAINTENANCE WORKER III
$6,846.67 - $8,762.00 Monthly

Overview:
This is a journey level position and the selected candidate will be required to operate a variety of construction equipment and will provide district-wide support performing maintenance and construction projects for creeks, ponds and reservoirs.

This position is working outside and there can be difficult environmental conditions such as cold, heat or rain. There could be times when you could be called out at night to perform flood control emergencies. If you are up to this challenge, apply now!

Key responsibilities include, but are not limited to:

- Skillfully and effectively transport and operate a variety of light construction equipment.
- Perform traffic control functions; set up traffic warning devices and barricades; direct traffic around work sites.
- Operate and maintain a variety of maintenance equipment including hand, air and power tools, generators, compressors, trucks, tractors and forklifts.
- Check job site for potential hazards; determine precautions for safe equipment operation; perform assignment in compliance with safety regulations and permits.
- Haul equipment to and from job sites; inspect equipment, make operating adjustments and perform minor preventive maintenance and repair.
- Maintain accurate and complete manual and computerized records of work performed.
- Ensure adherence to safe work practices and procedures.
- Respond to public inquiries in a courteous and professional manner; provide information within the area of assignment; resolve complaints in an efficient and timely manner.
- Inspect, adjust and perform minor maintenance on light equipment.
- Follow written and verbal direction.

Closing Date for Applications: November 26, 2019
