Located 22 miles southeast of Sacramento, the California OE3 JATC site consists of an 11-½-acre campus, with an additional 1,500 acres devoted to crane, heavy equipment, CDL and maintenance area, where hands-on training is conducted. The facilities are used to upgrade and multiply the equipment skills of members of the country’s largest construction union.

Instructors at OE3 JATC are required to attend new and advanced instructor training through the International Union of Operating Engineers (IUOE) to ensure the continued quality of the program and the high standards established for the staff.

Instruction is on an ongoing basis at OE3 JATC during the eight-week Probationary Orientation Period (POP) for new apprentices. After the probationary period, apprentices are required to successfully complete 80 hours of Supplemental Related Training (SRT) for each step of the Apprenticeship Program, usually once a year.

**2020 ORIENTATIONS IN NORTHERN CALIFORNIA** via Eventbrite

*Join us in any of these dates and learn how to become part of the largest construction union in the International Union of Operating Engineers (IUOE). In order to get an application, you must attend a mandatory orientation. See below for one nearest you.*
